RE:	ThyroSafe 65 mg Potassium Iodide Tablets		

☐ URGENT ☐ FOR REVIEW ☐ PLEASE COMMENT ☐ PLEASE REPLY ☐ PLEASE RECYCLE

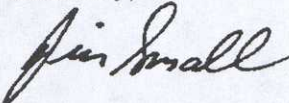

To Whom It May Concern:

The US Department of Health and Human Services extended the shelf life of our Thyrosafe KI 65mg tablets from 2 years to 3 years. Reference ANDA 76-350/S-003. After a rigorous testing and an extensive application process the extension was granted October 28, 2003 by the HHS.

For all of our Thyrosafe product produced before October, 2003 (which includes all of the product purchased by the California OES in 2004) to correctly calculate the new expiration date, please add 1 year to the expiration date printed on the package to convert to the new expiration date.

If there are any questions regarding the change to the shelf life of our product, or any other questions regarding Thyrosafe please contact me at jimsmallmail@cs.com, or at 1-866-849-7672.

Sincerely,

Jim Small
